## Overview:

- PROTECT-EUROPE ([www.protect-europe.org](http://www.protect-europe.org)) is an EU4Health Project aimed at promoting gender-neutral HPV vaccination programs across EU Member States to eliminate HPV-related cancers.
- Healthcare professionals play a key role in vaccination decision-making, as they are the main and most trusted source of information on vaccination.
- To improve the HPV vaccine coverage in target populations, a training has been developed to enhance the HPV knowledge and communication skills of healthcare professionals, titled: 'HPV Vaccines: From Prevention to Confidence Building'.

## Aimed at:

Practitioners working one-to-one with young people and their parents and to those delivering broader public health messaging.

## Methodology:

The course consists of 20 hours of online content divided in 7 modules, unlocked weekly. It is designed to be completed, at your own pace, within 9 weeks.

*HPV vaccines: From Prevention to Confidence building* **20h**

**Module 1:** HPV and related diseases

**Module 2:** HPV vaccines: an overview

**Module 3:** Prevention of cervical cancer

**Module 4:** Prevention of other HPV-related diseases

**Module 5:** Single-dose schedule and special populations

**Module 6:** HPV vaccine safety

**Module 7:** How can a healthcare worker promote and sustain vaccine confidence

*Calendar*

September 2nd - November 3rd 2024

## *Practical information:*
